Construction Update for Oldfield Outfall Sewer Improvements

Dear City of Atlanta Customer:

As part of the Department of Watershed Management's Oldfield Outfall Sewer Improvements Project, the contractor has installed an additional 200 linear feet of sewer pipe and manhole this week. Due to the rock we encountered last week, it has slowed crews down a bit. We appreciate your continued patience as the city works to improve the sewer infrastructure in your neighborhood.

As we continue to assess the excavation work on Woodward Way near the intersection of Northside Drive, we will continue to provide weekly updates. I will notify you immediately should we encounter additional rock during excavation.

Completed Work

- 87% work complete
- 1670 linear feet of sewer pipe installed
- 11 manhole installations to assist with sewer flow

Upcoming Work

- Approximately 450 linear feet of sewer pipe to install
- Removal of aerial sewer which is above ground and passes over the nearby creek
- Pavement restoration
- Creek embankment restoration

Project Completion

Anticipated project completion date is set for end of September, weather permitting.

We appreciate your cooperation, this work is a key part of our capital improvement plan to ensure clean, safe drinking water for Atlantans and our downstream neighbors.

If you would like to be added to the project distribution list to receive future updates, please email me directly at amuraida@atlantaga.gov. Learn more about the project by visiting, <http://bit.ly/AtlantaDWMOldfieldSewer>.
