

Atlanta Memorial Park Conservancy 2021 Fast Facts

Our Mission: *The mission of the Atlanta Memorial Park Conservancy (AMPC) is to restore, enhance, and preserve Atlanta Memorial Park, making it a beautiful, connected, and sustainable urban greenspace for the enjoyment of all.*

Our Focus: *We are accomplishing our mission through collaboration and partnership focusing on three core areas:*

GREENSPACE, WATERSHED, and CONNECTIVITY

Since its founding in 2011, AMPC has partnered with the City of Atlanta to provide the ongoing resources necessary to restore, enhance, and preserve Atlanta Memorial Park, including specifically **watershed, connectivity, and greenspace** improvements. The good work underway and planned calls for funds, time, expertise, and oversight to continue making the park a “beautiful, connected, sustainable greenspace for the enjoyment of all.”

OUR WORK

Over the last decade, AMPC established essential partnerships with the City of Atlanta and local non-profit organizations to make substantial improvements to our neighborhood park. We now enjoy miles of sidewalks and multi-use trails, a new playground, major watershed upgrades, hundreds of newly planted native trees, pedestrian-safety improvements, and the redesigned Bobby Jones Golf Course with additional tennis courts and paddle tennis courts. Our work is collaborative and community focused, bringing volunteers together for creek clean up days and forest restoration projects.

OUR MISSION CONTINUES—A SUMMARY OF KEY PROJECTS IN THE PARK

- adding a multi-use path under the new Northside Drive bridge connecting the Bobby Jones PATH to the Memorial Park sidewalks;
- visioning and installing special projects in the park, including Debbie’s Place—a place for friends to meet, to start a walk around the park or sit quietly among towering trees located near the corner of Northside/Wesley Drives;
- leading volunteer days with Trees Atlanta to remove invasive plants, adding over 250 native trees and shrubs in 2021;
- organizing volunteer days with the Chattahoochee Riverkeeper to remove trash and debris from Peachtree Creek;
- coordinating with the Department of Watershed Management, neighbors, and the Memorial Park Civic Association on the Wesley Drive green infrastructure project to address street flooding;
- working closely with the Haynes Manor Recital Hall Foundation to convert the former Bobby Jones clubhouse into a recital hall and community education space;
- embarking on “The Cornerstone Project” to improve the entrances to the park.

HOW TO DONATE

Whether you have been a supporter since our founding ten years ago or have considered contributing, **please show your support today by donating online at www.atlmemorialpark.org/donations or donating via check or stock (instructions can be found on the donations page of our website).**

The last ten years were transformative. **Your donation will help us restore, enhance, and preserve the park even more over this next decade!**
